REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Madore et al, U.S. Patent No. 5,057,240, discloses a liquid laundry detergent comprising a fabric softening agent, a volatile cyclic silicone, and a detergent that may or may not contain water (see col. 2, line 45-col. 3, line 15). Specifically, note col. 7, Example III, which discloses a process for treating fabrics in a home laundry process comprising contacting the fabric with a composition comprising a liquid detergent and a cyclic siloxane. However, patentee differs from applicant in that Madore et al does not teach or suggest in general a composition that contains a siloxane in combination with 0.1-50% by weight of water, or a home laundry process comprising contacting fabric articles with a non-immersive step in an automatic washing machine with a composition comprising siloxane, as required by applicant in the instant claims.

Accordingly, the claims viewed as a whole would not have been obvious to one of ordinary skill in the art at the time of the invention after viewing the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1751
